Sir:

RESPONSE

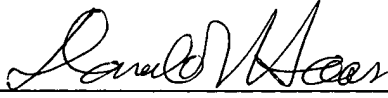

These remarks are submitted in response to the Office Action of December 18, 2003. All of the pending claims except claim 101 have been rejected under Section 102(e) as being anticipated by Singleton (U.S. Patent 5,780,694). This rejection is respectfully traversed.

The effective date of the Singleton reference for purposes of 102(e) prior art is its filing date, November 26, 1996. The present application claims priority to Serial No. 09/133,303 which is a divisional of Serial No. 08/755,843 which was also filed on November 26, 1996. Thus, the Singleton patent is not prior art with respect to the present application. The Applicants assert that

the rejection should be withdrawn since it is based on a reference which is not prior art. An early notice of allowance is respectfully requested.

Respectfully submitted,

DAVID M. SINGLETON, LOUIS KRAVETZ,
and BRENDAN D. MURRAY
